

Air Foot Valve FV-10

Convenient, easy-to-operate pedal!

<1> Smart and strong!

Very light since it is featured the aluminum die-casting body.
Very smart!

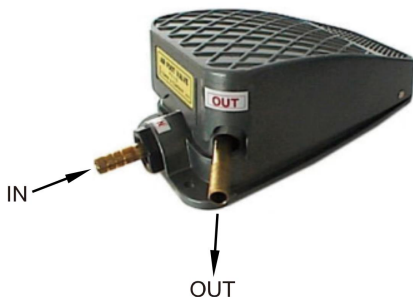

<2> Easy-to-operate pedal!

Just step on to start, foot off to stop.

<3> Large airflow!

Simple design ensures large airflow and no breakdown.

* FV-10 Foot Valve is very convenient and effective when used in combination with W701 Pencil Type, W501 Mini Type, W101-III and W301-III SS Type.
FV-10 Foot Valve also can be used in combination with other air tools.

Length	Width	Height	Weight	Hose Joint
170mm	82mm	58mm	480g	1/4+

Attention!

- Please connect the designated hose, size with $\phi 6.5\text{mm}$ to prevent air leakage, since air hose size is designed for $\phi 6.5\text{mm}$.
Please well fasten the hose with hose clip or other appropriate band for avoiding the disconnection. If not, it may cause serious damage to human body/ life.
- It is not applicable for use with cylinder or other device requires 3 port valve, since FV-10 is designed for 2 port valve use.
- Please make sure to connect hose at the appropriate port, IN or OUT.
